Mathematic days - Jaca

The two universities organize every two years since 1989 an international conference of applied mathematics which takes place in Jaca (Spain), halfway between Pau and Zaragoza. The purpose of this conference is to bring together researchers from academic or industrial laboratories. It deals with the application of mathematics to the study of problems in various scientific disciplines with the concern each edition to reserve a large part of the symposium on specific topics, current news for all partners.

- XIV International Conference Zaragoza-Pau on Applied Mathematics and Statistics. *Jaca2016* |
