

# Scientific computing and information technology

## Scientific computing

**Member:** Stéphanie Delage Santacreu and Matthieu Haefele

**How it works:**

- \* The LMAP has personnel specialized in scientific computing to help its research teams.
- \* **The Scientific Applications hub of the Numerical division** provides support to the teams of the UPPA in scientific computing and data processing.
- \* The LMAP has access to several **computing means**: the **cluster** of the **UPPA**, the **PlaFRIM** platform of the Inria and the data-intensive computing center of Aquitaine (**MCIA**).

**Members:** Stéphane Leborgne and Olivier Autexier

**How it works:**

- \* The LMAP has personnel specialized in information technology to help its research teams.
- \* The **Numerical division (DN)** provides support to the UPPA teams in information technology.
